

1 July 2019

Whanganui & MidCentral Community HealthPathways

Welcome to our new pathways site – [Whanganui & MidCentral Community HealthPathways](#).

An email will be sent to all existing Map of Medicine users with website, logon and password details, including a link to a [quick reference guide](#) to help you get started.

HealthPathways is available on a new, mobile-friendly platform. Whether you are in a clinic, in the hospital or out in the community, HealthPathways can now be accessed and used on a variety of computers and devices. Once you logon, search for instructions on how to download to your desktop or device.

HealthPathways will open automatically if you click the link within MidCentral DHB intranet, Central PHO intranet or The Provider Portal. Soon you will also be able to access HealthPathways automatically inside Indici, Medtech or Regional Clinical Portal.

Our localised Map of Medicine MidCentral pathways are available through HealthPathways under **MOM – MIDCENTRAL** on the HealthPathways home page. In time, these will be transitioned across to HealthPathways.

Please contact ccp@centralpho.org.nz if you have any queries.
